

Ketchup Bottles

Multilayer Polypropylene

Old Favorite, New Look

In the condiment world, ketchup continues to be a consumer favorite. Ball's multilayer polypropylene ketchup bottles provide an attractive package with elevated hot fill temperature capabilities. Ball offers a variety of stock ketchup bottle sizes that can also be used for food products such as mustard, jelly, squeezable salad dressings, barbecue sauce, relish and other sauces.

Features and Benefits

Ball's recyclable, polypropylene ketchup bottles can enhance the performance and appeal of your product. Our patented Gamma[®] barrier technology extends product shelf life, provides superb oxygen and moisture protection and accommodates fill temperatures up to 205°F. The lightweight, break-resistant bottles are ideal for shipping and store placement. Their glossy surface and contemporary shapes provide strong shelf appeal to distinguish your product from the competition.

Size	Height	Width	Depth	Weight	OFC	Neck Finish
14 oz	7.730 in	2.991 in	1.908 in	30 g	12.55 oz	33/400
